

Replayer

Version 0.4.1

Replayer is a free media player for use during rehearsals with playback music. It's main feature is fast navigation to predefined cue points in the playback media.

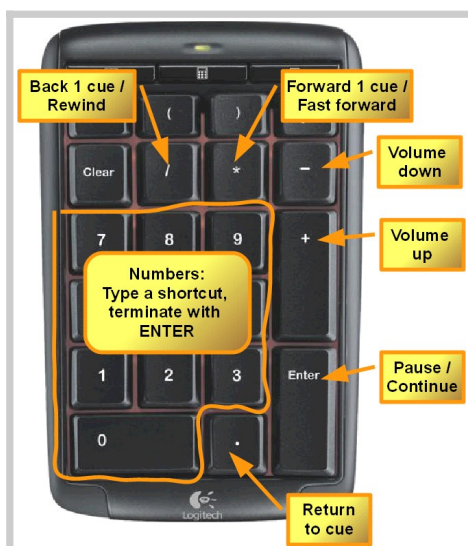

Getting started

First, you create a compilation of tracks and cues once, using a wizard from within *Replayer*.

Rehearse

Then, using *Replayer* and your laptop computer, you can rehearse any portion of your set with ease.

Fast

Use the navigation features on the numeric keypad.
